

Auto-Calling Information

- The Advocacy Marketing Group offers flat rates, based on the number of calls placed. Our rates are just \$150 for the first 1,000 calls, and from .04 --.08 cents per call after that. There are no other set-up charges or any hidden fees.
- Auto-calls are a fast, easy and affordable way to reach your members, potential voters, volunteers and donors. Pre-recorded calls are an effective way to remind people about upcoming meetings, volunteer opportunities, special events or to vote.
- Our rates remain low whether your call volume is large or small.
- We don't require you to sign an annual or minimum contract.
- We use only land-based lines in order to ensure quality and message deliverability.
- We have a team of "voices" available who can help you record a professional message, in English, Spanish or Russian.
- Whatever your needs, our messaging system will be a powerful addition to your communication and outreach plans. Since campaigns and organizations often don't just keep regular business hours, we make sure that our service is available to you when you need it.
